Hey—

I know PACS has been helping with updating the fact sheets for the Administrator's hearing before the House Science and Tech Committee on the 19th. Just wanted to make sure you've looked at these – I expect he'll get questions so I just want to make sure his talkers are up-to-date (esp. for regional areas of interest, like Atl.)

(If this is overkill and you're already working with Carissa on updates, apologies.)

Thanks,
Isabel
